The Confucianism-Buddhism-Christianity Integration Jamigug 126

Introduction of Authors

MALE AUTHOR

Position by Command of Jami-ChonHwang-nim, Heaven Emperor of the Universe

I was appointed Jami-Inhwang, translated as human emperor of Jamigug. I am a personified representative for the heaven emperor of the universe, the Creator, transcribed as TaesahngChonjon Jami-ChonHwang-nim or simply Jami-ChonHwang-nim, the Mightiest in Great Heaven (nim is a postfix to show reverence to a superior existence). As a personified representative for Jami-ChonHwang-nim, I shall communicate and perform His command. Jami-Inhwang is abbreviated into “Inhwang,” which means “Heaven incarnation” or “Heaven agent.”

FEMALE AUTHOR

Position by the Command of Jami-ChonHwang-nim

Female author is appointed Singahm, translated as His inspector of this world, and a Heaven word messenger for TaesahngChonjon Jami-ChonHwang-nim.

WORLD GOVERNMENT JAMIGUG

Address: 382-6, Samjung B/D, Seongnae 3 dong, Gangdong-gu, Seoul, Republic of Korea

Phone Number: +82-2-403-7738

This place is officially named the Heavenly Palace of Jamigug on Earth, abbreviated into “Jamigug.” Jamigug will tell the truth about the world after death, including Heaven, Hell, ancestors, and spirits, which has been thought of an imaginary world, for the first time in history.

Physical death does not mean the termination of our life. A tougher and more agonizing world after death waits for you. I wish you to read this book to become aware of the after-death world and to then be a wise reader who prepares for it.

Of course, there is a Heaven world, where flowers bloom and birds sing songs. I intend to tell you the truth: a terrifying hell exists that will have to be suffered for 3.5 trillion years to 34,105 trillion years.

—*By World Government Jamigug, South Korea*

1

The Choice of Humankind

THE FIRST AND LAST TRUTH IN HISTORY

We authors are saying that the moment that you readers around the world are reading this book, you stand at the door to Heaven, which a lot of people, ancestors, spirits, and gods all celebrate and which leads to a new civilization. You could meet Jamigug and then be lucky enough to see Heaven. This could be a golden opportunity for the greatest pleasure and happiness in your life. We authors think you readers do not realize what luck you have had. We authors are afraid that you have bought this book just out of curiosity about the story of Heaven. But I say you would be wise to pay a lot of attention to every word in this book. If you skip through this book, reading what you think is important, you may be filled with great remorse.

In other words, you may commit the terrible mistake of missing the great opportunity of having been born as a human. Read through this book to meet TaesahngChonjon Jami-ChonHwang-nim, the Creator of the universe, and you will find a way to eternal happiness in it. Despite the fact that you readers have difficulty judging whether a world exists after death, which is invisible and inaudible, you should realize Heaven exists. However, even presidents and business leaders across the world should recognize that Heaven exists. Presidents, kings, and global business leaders, such as President Obama, the king of South Arabia, the king of Japan, Queen Elizabeth of Great Britain,

Hu Jintao, Bill Gates, Warren Buffet, the mayor of New York, and anybody who has power and wealth are merely knoll, compared to Jami-ChonHwang-nim in Heaven.

Whoever meets Heaven “by way of” Jamigug will get a chance to be more glorious than any top politician or business leader in the world. So you readers shall be filled with pleasure and excitement by reading this book. If you enter Jami and meet Heaven, you will realize that what we authors are saying is true. The Confucianism-Buddhism-Christianity integration Jamigug, the Creator of the universe, is not a new religious group. This is a holy nation, where for the first and last time in history, men, ancestors, spirits, and gods meet Jami-ChonHwang-nim and pray for forgiveness of their sins and thus are saved, and the grace and favor of Heaven are eternally and endlessly given to them.

Human beings can live a hundred years usually at the most. The power and wealth that they enjoy for the ephemeral period of a hundred years or shorter become obsolete and useless after death. There exists Heaven, which is thought of as an imaginary world by some people. Likewise, there exists Hell, opposite to Heaven in the spiritual world. God’s kingdom, Christians believe, includes not just Heaven (paradise) but a hell, called Heukseong-Hell in Dori-Heaven, the second spiritual world. And the heaven “Buddhist Elysium” that Buddhists believe in includes not only a paradise but also a hell, Gyuhan-Hell in Dosol-Heaven, the fourth spiritual world. The six-stage spiritual worlds of Hell are as follows:

- If you fell in Deunhwal-Hell in Sawang-Heaven, the first spiritual world, you would live 3,330, 625,000,000 years.
- If you fell in Heukseung-Hell in Dori-Heaven, the second spiritual world, you would live 133,322,500,000,000 years.
- If you fell in Junghap-Hell in Yamk-Heaven, the third spiritual world, you would live 53,290,000,000,000 years.
- If you fell in Gyuhan-Hell in Dosol-Heaven, the fourth spiritual world, you would live 213,160,000,000,000 years.
- If you fell in Daegyuhwan-Hell in Hwarak-Heaven, the fifth spiritual world, you would live 17,052,800,000,000,000 years.
- If you fell in Yeumyeol-Hell in Tahwajajae-Heaven, the sixth spiritual world, you would live 34,105,600,000,000,000 years.

There are the eternal worlds of Hell, where sinners shall be given severe and terrible punishment for minimum of 3,303,600,000,000 years to maximum of 34,105,600,000,000,000 years. Jami is telling people across the world about the truth of the spiritual world after this for the first time in history. Till now, people knew nothing of the after-death world—Heaven or Hell, which are both invisible and inaudible. So people have been attached to money, power, and honor. Whoever knows a lot about the after-death world where he or she shall go after death through Jami and then prepares for it will be a wise person.

As long as you are born as a human, you cannot avoid the after-death world. Nobody can avoid the way to the after-death world! Whoever prepares for it and goes up to Heaven, not to Hell, finally enjoy eternal happiness, would be more pleased than anybody else. Man will stand side by side with woman; yin will stand side by side with yang; sky with land. Likewise, Heaven (paradise) will stand side by side with Hell in the spiritual world, that is, in the after-death world. I hope all the people in the world will hear about this message and to pay attention to it, and that they will be reborn not in Hell, where they could live with endless ailment and pain, but in Heaven, where they could lead lives of eternal happiness and pleasure. This is the true hope and wish of Inhwang (the male author) and Singahm (the female author).

IS IT THE ADVENT OF MESSIAH WHO HUMANKIND HAS LONGED FOR?

Christianity, Catholicism and Protestantism, has longed for the advent of the second messiah. And Buddhism and Taoism have waited for another coming Buddha (Maitreya). A number of religious leaders in the world have claimed that they are the very messiah or Buddha. However, strangely enough, all of them have died. More than half the people around the world have accepted and acted on what they were told as if their words were true. However, religious leaders did not tell people about the truth of Heaven and left just a lot of mental boundaries called religion to the after-death world. Although the creators of religion left this world, to the human race's regret, their religious theories have remained alive, standing the test of time. I think you can judge, while reading through this book, whether I am the very messiah or Buddha. My goal is not to commu-

nicate hackneyed religious theories that previous religious creators have declared and spread to the public on the basis of the Bible or Buddhist holy writs. It is to tell people all over the world about the clear and transparent truth of Heaven. And this is His command. Jamigug is not a religious organization but a nation of Jami-ChonHwang-nim, the Creator of the universe, where clear and clean spiritual energy comes eternally and endlessly from Heaven. Jami is a Confucianism-Buddhism-Christianity integration, called Jamigug, which transcends anything religious: Catholicism, Protestantism, Islamism, Buddhism, Hinduism, Taoism, shamanism, or folk religions. The male author was dubbed “Inhwang, a personified representative of Heaven of Jami-ChonHwang-nim,” abbreviated into “Inhwang” or “a personified representative of Heaven.” The female author was dubbed “Singahm, a heavenly word messenger for Jami-ChonHwang-nim,” abbreviated into “Singahm” or “a heavenly word messenger.” “Inhwang,” a personified representative of Heaven, gives orders to all people in the world, on behalf of Jami-ChonHwang-nim. “Singahm,” a Heaven word messenger, communicates His message to human beings.

Now human beings are faced with an enormous number of catastrophes, by no stretch of the imagination, which are impossible for them to cope with. It is commonly believed that the catastrophes are due to climate change: unusually high temperatures and unusually low temperatures. They have suffered extreme cold and heat, drought, floods, earthquakes, seismic sea waves, hurricanes, tornadoes, and others. These cause an astronomically big casualties and economic damage. However, people have few, if any, measures against those disasters. Even so, no one provides satisfactory solutions to these catastrophes. It is inevitable that people around the world live day by day, feeling uncomfortable, anxious, nervous, and frustrated.

Of course, since the beginning of history, different people have had different feelings of anxiety and horror. We authors think people have depended on religion to get rid of discomfort, anxiety, and horror, after their different fashions. At present, more than half of the people around the world are surrounded by anxiety and nervousness, relying on religious life to get physical and spiritual salvation. There is no one who knows how to avoid these terrible disasters in the world. If so, what is the use of religion, and religious theories and creeds, in the face of catastrophe? No matter how good and complete religious theories are, what if they cannot provide solutions to the catastrophes facing human beings? All people should take a sharp look at the

weaknesses of existing religions. And only when they are aware of the true message of Heaven can they find the key to avoid catastrophes. People who do not know about the true message of Heaven call this reality of anxiety and nervousness “eschatology.” They say that they are preparing for the Last Day of the globe after their different fashions. However, the existing major religions have become useless in the face of these disasters. In this manner, the preparations for the disasters made after their different fashions are sure to be obsolete in the face of the catastrophes. It is Jami-ChonHwang-nim, Inhwang, and Singahm who know every inch of the causes of and solutions to the anxiety and nervousness that people around the world have had. The causes of unusual climate change shall be communicated to the human race by Inhwang and Singahm in place of Jami-ChonHwang-nim.

America is a nation where people have the passion to believe in God. Chinese people are active in accepting another coming of Buddha, Maitreya. Japanese are passionate believers in the Spirit, a god. As of June, 1, 2010 (based on lunar calendar), it has been six years since Jamigug was established in Republic of Korea. Before I was aware of the existence of Jami-ChonHwang-nim—before Jami was established in South Korea, God, Maitreya, and the Spirit had protected each nation and helped it experience economic growth. Between late May and early June, Inhwang and Singahm officially established Jamigug, for the purpose of communicating the truth of Heaven to the human race. As soon as Jami declared its establishment to the world, firstly the Spirit came to reveal himself and be settled in Jami. Secondly, God came to reveal Himself and settled in it. Thirdly, Maitreya came to reveal himself and settled in it, protecting Inhwang and Singahm. Those countries now without love and protection of the Spirit, God, and Maitreya began to be exposed to horrible disasters. Those disasters happen in each and every one living in those countries.

On the contrast, people in Korea, where Inhwang and Singahm have been inhabited, can live in peace and comfort. Many people might wonder why Koreans can live in peace, leisure, and comfort, distant from disasters that have been suffered by most people around the world. The reason for this stability in the Korean Peninsula is that all gods, including the Spirit, Maitreya, and God, who have protected other nations, have come to Korea to help Inhwang and Singahm successfully perform the holy tasks of Heaven. By contrast, other nations that had been protected by their own gods have sustained a lot of damage and loss, for lack of their direct protection and love. The

divine works happen to be performed in the disguise of human ones. God, Maitreya, and the Spirit, who had previously worked for the purpose of protecting their own peoples after their different fashions, have come to Jami to work together to communicate the existence of TaesahngChonjon Jami-ChonHwang-nim to all people around the world, staying with Inhwang and Singahm. The worldwide disasters are not an omen of the termination of the human race, but a message of calling people around the world into Jamigug. It is a precious message by Jami-ChonHwang-nim to the human race, who cannot know the invisible and inaudible spiritual world, to tell them about His advent (Jami, Inhwang, and Singahm). So the human race should follow His message and meet in Jami in order to be protected by Jami-ChonHwang-nim and thus live in peace and comfort.

In addition, I am saying that the owner of the universe is not Buddha, Jesus, Maitreya, God, the Spirit, the Virgin Mary, or others, but TaesahngChonjon Jami-ChonHwang-nim, the Jami Heaven Emperor. It is Jami-ChonHwang-nim who created all things in the universe, including Buddha, Jesus, Maitreya, God, the Spirit, the Virgin Mary, and others. Inhwang and Singahm say on behalf of the three gods, the Spirit, God, and Maitreya, that they have banded together with Inhwang and Singahm to fulfill great, divine tasks that have never been accomplished by anyone. Before this book was published, people around the world lived in anxiety and discomfort day by day, not knowing why. If there are disasters that cannot be avoided despite advancements in cutting-edge science, they are natural disasters. There is no being that can make this world a good one, where there is no anxiety and ailment, but Jami-ChonHwang-nim and the three gods (God, Maitreya, and the Spirit).

The human race has realized, throughout history, that repeated religious life cannot give it peace and comfort. In fact, religion was not what Jami-ChonHwang-nim wanted. It was not the volition of the people known as saints to the human race. It should be known that religion was not established by a saint when he lived; it was established by those who came after him. It was created just on the basis of superficial, human—not divine—theories. Great TaesahngChonjon Jami-ChonHwang-nim created the entire universe in the beginning. But we, the human race, have all lost Jami-ChonHwang-nim, true spiritual parent. In the beginning, He was the very Creator of the human race—Koreans, Americans, British, French, Canadians, Australians, Chinese, Indians, Thais, Japanese, Iraqis, Israelites, Arabs, and others—and allowed them to live in this world.

Before knowing TaesahngChonjon Jami-ChonHwang-nim, the true God, people lived different lives in different countries. But now the time has come when they can live with Jami-ChonHwang-nim: a new utopia (Heaven) is opening. Jami-ChonHwang-nim made Inhwang and Singahm establish Jamigug in the Republic of Korea, with the purpose of opening a door to the utopia, communicating His truth to all people. He has made an effort to found the utopia where His descendants come, by His orders, to live in peace and comfort. It is a great pleasure to the human race that Jami-ChonHwang-nim, whom they have longed for and missed, at last revealed Himself through Inhwang and Singahm. Of course, does what we suffer in life include just disasters? In a world without Jami-ChonHwang-nim, their spiritual parent, they may suffer a lot of hardships. Whoever thinks it is due to the fact that they have lost Jami-ChonHwang-nim and decides to follow His message and act on it will be a wise person. Clearly, Jami-ChonHwang-nim has told the human race about a number of disasters in the world. Whoever does not hear of His true message and act on it might be deprived of a chance for salvation in eternity.

All human beings should set themselves free from the stereotype of religion with courage. Jami-ChonHwang-nim has said in many ways that religion is not His true message. If He says no, it means no. That we, the human race, speaking out against Jami-ChonHwang-nim means a loss to us. It has been found that a person who stands against Him falls in destruction. Do not live against Him—you will live in agony; follow Him and you will live in His protection and love, and you will live in peace and comfort even in the world after death. Inhwang and Singahm are telling the human race, on behalf of Jami-ChonHwang-nim, about the way to be free from disasters by receiving protection and love from Him.

ARE THE GLOBAL DISASTERS AN INDICATION OF THE BEGINNING OF CATASTROPHE?

\$43 Billion of Loss Caused by Flood in Pakistan

Prophecy of Global Catastrophe on December 21, 2012

Web Bot not recognizing the year 2012 because it knows what will happen.

A secret report by the Pentagon warns that the global catastrophe will be a serious threat to national security which will not be caused not by religious conflict or terrorist attacks but by climate change. Climate change will be followed by lack of food, water, energy, horrible drought, starvation, riots, and other things, even causing military conflicts between nations. The earth has already become hot at an astonishing velocity. In 2005, when Jami was officially established in Korea, the surface temperature of the earth set the highest record since it was officially recorded in 1880. In reality, over the past thirty years, the annual average temperature of the earth has been on the steepest rise, out of those for the past one thousand years.

1998

- Earthquake measuring 7.9 on the Richter scale in Turkey, claiming the lives of forty thousand people (August 1999)
- Earthquake in Kashmir, Pakistan, claiming the lives of 38,000 people (1999)
- Flood in Venezuela and Colombia, claiming the lives of forty thousand people (1999)
- Cyclone in India, claiming the lives of 150,000 people (October 1999)

2000

- Earthquake measuring 7.9 on the Richter scale in India, claiming the lives of twenty thousand people (2001)

2001

- Collapse of WTC, New York (September 2001)

2002

- Typhoon Rusa in Korea, causing losses of 7.5 trillion won, claiming the lives of forty thousand people (August 2002)
- Greatest flood in one hundred years, in Germany

2003

- Super-size forest fires in Vancouver, Canada
- Earthquake measuring 6.9 on the Richter scale in Iran, claiming the lives of 29,000 people

- Unusually high temperatures in Eastern Europe, including France, claiming the lives of fifty thousand people (August 2003)
- Typhoon Maemi in Korea, causing losses of 4.5 trillion won, claiming the lives of 130 people (September 2003)

2004

- Earthquake measuring 9.1 on the Richter scale, in Indonesia, claiming the lives of 250,000 people (December 2004)

2005

- Earthquake measuring 7.6 on the Richter scale, in Kashmir, India, claiming the lives of 73,000 people (April 20, 2005)
- Hurricane Katrina, 280km per hour, in New Orleans, Louisiana, causing losses of \$130 trillion (August 2005)
- Earthquake measuring 7.6 on the Richter scale in Pakistan, claiming the lives of 79,000 people (November 2005)

2006

- Earthquake in Jakarta, Indonesia, claiming the lives of 5,782 people (March 2006)
- Greatest flood in one thousand years, in England (July 2007)
- Greatest flood in eight hundred years in Ireland (July 2007)

2008

- Earthquake in Sichuan, China, claiming the lives of 83,000 people (September 2008)
- Cyclone Nargis, Myanmar, claiming the lives of one hundred thousand people (April 2008)
- Forest fires for two months in California (November 2008)

2009

- Forest fires in Australia (January 2009)
- Biggest forest fires in history (July 2009)
- Typhoon, 2550mm of water per day, the largest rainfall, Taiwan (August 2009)
- Biggest forest fire in history, Greece (August 2009)
- The biggest drought in sixty years, southern China (August 2009)
- The biggest typhoon in forty years in the Philippines (October 2009)

2010

- Heaviest snow in one hundred years in America (February 2010)
- Earthquake measuring 7.0 on the Richter scale, in Haiti, claiming the lives of 350,000 people (January 2010)
- Earthquake measuring 8.8 on the Richter scale in Chile, claiming the lives of seven hundred people (February 2010)
- Biggest flood in five hundred years in Rhode Island (April 2010)
- Volcanic activities for twenty-five days in Iceland (April 2010)

It is claimed that the line-up of the solar system can cause unimaginable catastrophe. If the line-up of the solar system happened on December 21, 2012, shocking disasters could occur, including tsunamis, volcanoes, polar wandering, etc., which might cause the destruction of all humankind. The Norwegian government is constructing Noah's ark, an international storehouse on the Svalbard Islands near the North Pole. The storehouse holds about three million seeds from across the world; additional storehouses are under construction. Many countries, including the United States and EU countries, are participating in the project. It is argued that this is evidence for their preparations for the planet's collision. It is often claimed that the press reported that in 1982, NASA found planet X, but the U.S. government stopped it from being revealed. It is also predicted that when X nears the earth and then passes by the Sun, sunspots will become irregular in shape, and then the earth will expand by twenty times or bigger and finally explode into pieces. There are worries about the earth being exposed to a large amount of radioactivity and ultraviolet rays. The solar storms at this time will destroy all electronic equipment and instruments, including satellites.

The phenomenon of unusual climate on Earth has long been heard of. Global warming has rapidly melted glaciers, caused floods, and raised the sea levels. And global warming has caused a lot of floods around the world: the floods in the Rhine River in 1966 and 1977, the flood in China in 1995, the flood in East Europe in 1998, the flood in Mozambique and Europe in 2000, and others. Sichuan, China had an earthquake measuring 7.8 on the Richter scale, which claimed the lives of tens of thousands of people and destroyed eight hundred thousand houses. On the other hand, some scientists cautiously say that December 21, 2012, the

day when the sun begins a new cycle, is the signal of the global catastrophe.

On September 8, 2010, Pakistan suffered its worst flood, which killed 1,752 people, injured 2,697 people, and brought damage to 18.6 million people, with economic losses of \$43 billion. The global calamity has already begun.

THE U.S. TORNADO

Ninety percent of the tornadoes around the world occur in the United States. The country has an annual average of 1,200 tornadoes, which kill hundreds of people. Tornadoes have tremendous powers of destruction. The external part has a much stronger power to push things out than the internal part. Meteorologists divide the strength of tornado into six classes, F0–F5.

F0: “Gale,” 64~115km per hour, strong enough to destroy signboards

F1: “Moderate,” 180km per hour, strong enough to tear out roofs and topple houses

F2: “Significant,” 250km per hour

F3: “Severe,” 330km per hour, strong enough to derail a train and destroy roofs and walls

F4: “Devastating,” 410km per hour, strong enough to destroy strong houses and pick up cars

F5: “Incredible,” 500km per hour, strong enough to blow away houses and move cars up to 100m

TORNADO ANDREW, CAUSING LOSSES OF \$30 BILLION

Till now a lot of tornadoes have brought damage to Central and South America. It was Katrina in August 2005 that caused the worst damage in history. New Orleans sustained the biggest damage from Katrina—2,576 people were killed or disappeared. It is estimated that it brought losses of \$200 billion to the region. In addition, it presented social problems: robbery, pillage, and lack of security. And Katrina shocked the world economy. In the Gulf of Mexico, the production of oil stopped. Oil refineries in Louisiana, which had produced 10 percent of U.S. oil refining capacity, were temporarily stopped. The collapse of the levees caused most of the

city to be flooded. More than 80 percent of New Orleans was inundated. More than twenty thousand people were missing. The city looked like a hell. It was a reality, however. The tornado, 500km per hour, shattered all things to pieces in a twinkling.

Is the American tornado a cursed disaster for America? Or is it a warning sign? The tornado on the TV screen has tremendous power. But the tornado occurs only in America, whose people have enough passion to believe in God, not in other countries. We authors believe that these terrible tornadoes are a message to the American people. So the American people would be wise to visit Jami to ask Jami-ChonHwang-nim why tornadoes occur so frequently. Jami-ChonHwang-nim, of course, knows the truth of the frequent occurrence of the tornadoes. Now it is not too late. Any of the leaders of the United States, the president or a governor, should read this book and then visit Jami to save the country with the help of Jami-ChonHwang-nim. Tornadoes cause losses of tens of billions of dollars annually. Even so, why do the American people and the authorities stand about without doing anything? Why don't they wonder why God and Jesus do not protect the Americans who believe in them against those disasters? God is an omnipotent and omniscient being himself.

However, God and Jesus are not the true Creators of the universe, after all. It is TaesahngChonjon Jami-ChonHwang-nim who created God and Jesus. God and Jesus do not come near Jami-ChonHwang-nim in omnipotence and omniscience. The omnipotence and omniscience of Jami-ChonHwang-nim have no limits.

Human beings shall know that the true Heaven (God) is not God, which all people believe so, but Jami-ChonHwang-nim. TaesahngChonjon Jami-ChonHwang-nim is the true parent of all human beings and the true Creator of the universe, who transcends all religious worlds. God, believed as such by Christians, came into Jami to call all human beings, in the name of Jami-ChonHwang-nim. God is saying that the Creator of the universe is not Himself but Jami-ChonHwang-nim. In order to reveal the existence of Jami-ChonHwang-nim, God left the nations whose people believe in Him to go to Jami in Republic of Korea to be with Inhwang and Singahm. So the United States, which has not been protected by God, has had a lot of tornadoes. In other words, there is no spiritual energy any longer from God in America. No country, including America, will have God's spiritual energy.

Now God is telling us authors to tell all people about this truth. So we authors, on behalf of God, are recording and then communicating this fact to all human beings across the world. God orders us to widely spread the news by publishing one book that gives details of eschatology, the causes of catastrophe and strange diseases, the true God, and a new utopia. If the God who all human beings believe in and follow is not with us authors, how can we authors communicate the truth, which they are unaware of, to them? In a word, all human beings should come into Jamigug, depending on God's true message, to receive salvation from TaeaahngChonjon Jami-ChonHwang-nim with the help of God. This is the only way to eternal life that all human beings are forced to pursue.

PRO-DEMOCRACY MOVEMENT IN THE MIDDLE EAST

The pro-democracy movement has forced dictators of Tunisia and Egypt to step down. The winds of change blew into Libya. Qaddafi, the president, was also rejected by other tribes in the country. The clash has resulted in more than a thousand casualties. The protest will soon land in China on a large scale. When it occurs, North Korea will be next.

The world is now in an apocalyptic state, with natural disasters such as big earthquake and tsunami that hit Japan, where more than twenty thousand were killed. The spread of contagious diseases like SARS, H1N1, and foot-and-mouth disease is rampant. More than three million infected livestock were culled and buried in South Korea alone. The spread was so fast and out of control that blundering mistreatment may have polluted human drinking water.

What would you say if all these were meant as a heavenly duty by the gods of Heaven and earth to lead 6.9 billion people on Earth, who are absent-minded about the existence of Heaven?

The People's Republic of China is comprised of fifty-five minorities. This means that China has invaded fifty-five small nations. It is about time that these minorities earn their independence.

Tunisia, Egypt, and Libya are the starting line of pro-democracy movement. Saudi Arabia will fall as well. The storm of protesters will oust the dictators and bring about democracy.

If Qaddafi were to be expelled by his people, the impact would spread like wildfire throughout the Middle East and other countries. Proliferation would then spill over to China. It would ignite a historical event that could never be turned back. And China, the communist giant, would fall into fifty-six different independent countries and be born again.

Everything will be returned to the original state, that is, the very beginning of when humans were created by the Mightiest in Great Heaven, Jami-ChonHwang-nim. Aggressor nations will be forced to return to their origins and give what they have occupied back to the minorities.

Jami-ChonHwang-nim, the Mightiest in Great Heaven, says no one has the right to invade other countries, suppress human rights, and use people like slaves. Anyone who does will receive his lumps. You reap what you sow. It is a deed that you have brought upon yourself. The Great Heaven makes no mistakes.

He is the father of our souls, and the soul of each individual. He's the supreme commander upon Heaven and earth.

Jami-ChonHwang-nim, the Mightiest in Great Heaven, is handing down a silent message to us humans through natural disasters, unidentified epidemics, unusual climate change, and the fall of dictators and their suppressive regimes.

Tibet and Uighur still continue to fight for their freedom and independence. Fifty-five minorities are still fighting for their independence, just like what Korea did against Japan.

Who knows the pain and sorrow of losing one's land or country? It has been only sixty-six years since Korea earned its independence.

As I, Inhwang, write in this book, China will be divided into fifty-six minorities. Korea will regain its three previous territories (GilLinSheng, Liaoning, and Heilungkiang). North Korea will fall automatically when China does. Then, three Han nations (South Korea, North Korea, and three territories in China) will be united. The world will unite and become one nation under World Government Jamigug. This is the Heavenly Duty that Inhwang predicts and prepares for. It will be a re-creation of humanity.

Jami-ChonHwang-nim, the Mightiest in Great Heaven, shows his existence through Inhwang, the representative of Great Heaven. He's the one to save mankind from religions, communists, evils, agony, and misfortune.

All the tyrants on earth will either flee or be ousted from power. Religion is no exception. You should know by now what's right from wrong based on your own experience. Religion, communism, and long-held tyranny, which are against Jami-ChonHwang-nim's will and his words, have no standing on this earth. They will vanish for eternity.
